EDUCATION

IUB

2021 - 2025

BS Software Engineering

AWARDS & CERTIFICATIONS

- Blood Donor – Regional Blood Center, Bahawalpur

SKILLS

- IoT and embedded systems knowledge
- Strong communication and collaboration
- Problem-solving and debugging skills
- Front-end skills in HTML, CSS, JS, React
- Project handling and time management

PROFILE

I am a Software Engineering graduate with 4 years of experience in IoT and desktop application development, and 1 year in web development. I specialize in building real-world solutions using Python, Tkinter, and Arduino/ESP32. I'm currently focused on frontend development and working toward becoming a full-stack developer. I take pride in delivering well-documented, client-ready projects and adapting to different roles in software, automation, and integration.

WORK EXPERIENCE

IOT & DESKTOP APPLICATION DEVELOPER

PaZhong Automations

Feb 2022 - Aug 2024

- Developed smart systems using Arduino, ESP32, and sensors
- Built desktop apps with Python (Tkinter/CustomTkinter)
- Delivered solutions like solar scrubbers, smart dustbins, and parking systems
- Documented hardware/software workflows for deployment
- Provided system support, troubleshooting, and updates

WEB, DESKTOP & IOT DEVELOPER

Freelance Developer

Self-employed – 2021 to Present

- Completed freelance projects via LinkedIn, Facebook, and the university
- Built responsive sites using HTML, CSS, JS, and React
- Developed desktop tools in Python (Tkinter)
- Managed full project cycle from planning to delivery
- Communicated with clients and maintained clear documentation
